Craig Lesurf | *President* | Gillman Group

Craig is President of Gillman Group and is responsible for growing and managing the operations of Walsh in Canada with a focus on client and subcontractor management. Gillman is a progressive General Contracting firm that specializes in Construction Management and being a relationship centric builder.

With 35 years in the construction industry and over \$7B worth of construction projects, Craig brings a wealth of experience, an intimate knowledge of the market and an active presence in many industry associations. Craig graduated from Ryerson University with a Bachelor's Degree of Architecture in Project Management and was bestowed with an Honorary Degree Bachelor of Technology (Construction Management) from George Brown College in 2014. Craig has held various field, office management and executive positions with many prominent general contractors in Canada. Craig was CCA Gold Seal Certified as a Project Manager in 1997, recognized as a Professional Constructor by The Construction Institute of Canada in 2006, received the Chancellors Award of Excellence in 2006 and again in 2012, became a Fellow of the Chartered Institute of Building in 2010 and received the OGCA's Doug Chalmers Safety Award in 2017. Much like the Gillman Group, Craig has a vested interest in the community and the desire to help the next generation of construction professionals.

Currently, Craig sits on The Construction Institute of Canada (TCIC) Professional Development Committee; Honorary Chairman of the TCIC National Student Bid competition; former Chair of the George Brown College Construction Management & Trades Program Advisory Council; sits on the Executive Board of Directors at the Toronto Construction Association (TCA) and is a past Chairman of the TCA and past Chair of its General Contractors Section; sits on the OGCA Executive Board of Directors and is an Industry Safety Advocate including acting as Chairman of the OGCA Safety Committee and Chairing the League of Champions. Craig also guest lectures at Ryerson, George Brown, Construct Canada, the Ontario General Contractors Association, and numerous other venues on various construction industry-related topics.

As you can see Craig is passionate about community, safety, people, culture & results and often says "Leaders need to Lead".

John Mollenhauer | *President & CEO* | Toronto Construction Association

John Mollenhauer is President & CEO of The Toronto Construction Association (TCA), Canada's oldest and largest mixed trade association with more than 1,800 member companies. He is also President & Vice Chancellor of The Construction Institute of Canada (TCIC), sits on several Boards of Directors, serves on the program advisories for a number of Ontario colleges and universities and was the recipient of an honorary fellowship with the UK based Chartered Institute of Builders (CIOB). During his 35 tenure in the construction industry, Mr. Mollenhauer has held senior management positions with such companies as Mollenhauer Ltd., Contractors and Engineers, the Cadillac Fairview Corporation and Citiplex Resources Inc., where he served as President & CEO before joining TCA in January, 2005. Mr. Mollenhauer was educated at Upper Canada College and Queen's and Ryerson Universities.

Greg Moore | *Executive Advisor, Development & Project Management* | Quantum Projects

Greg has over 40 years of experience in the real estate industry working across North America managing the development, design and construction of over \$10B in critical properties, lifecycle renewals, hospitality sector projects, office builds and the management of large asset management portfolios for clients such as PWGSC and Infrastructure Ontario.

As a project management executive Greg has a demonstrated record of providing strategic leadership and a thorough grasp of the fundamentals involved in large complex real estate projects including assessment of delivery methodologies, procurement /contract management and risk management of projects.

Greg has a Bachelor's degree in Architecture from Carleton University along with PMP and LEED designations. He sits on a number of volunteer boards, is the recipient of Sovereign's Medal of Canada for Volunteers and has raised over \$25M for research in the healthcare industry.

John Mollenhauer | President & CEO | Toronto Construction Association

Lauren Brust Moss is an experienced leader, relationship manager, business development and operations professional. She has spent her career building successful, profitable and forward-thinking programs and teams. Recognized as an expert in her current work, Ms. Moss is the Senior Vice President, Marketing and Business Development at Active Design Advisors, Inc, a subsidiary of the Center for Active Design. Previously she was the head of the New York office as well as lead for business development, marketing and strategic growth within Sustainability Services, a division of NORESKO, LLC. She is responsible for expanding and deepening the relationship and work opportunities with new and existing clients and creating a dynamic, efficient, and qualified team. Ms. Moss has worked in the New York and tri-state real estate market managing large scale building and portfolio projects including targeted energy and capital improvements, feasibility, regulation and compliance, certification, and cost considerations.

Jeff Murva | President | Murva Consulting Ltd.

Jeff has over 34 years of experience in managing the development, design and construction of award winning building projects. Jeff has held senior management positions with Canadian industry players such as PCL, PHA Project Management, CBRE, Freed Developments, and FirstCon Group. Over his career Jeff has managed the planning, design and/or construction of ICI and Residential projects totaling 17,035,000 square feet at a contracted value of \$ 7.07 Billion including 14,163 residential units, including Canada's first Supertall building currently under construction.

Jeff holds a Bachelor's degree in Civil Engineering from McGill University and is an MBA graduate from The Richard Ivey School of Business, University of Western Ontario. He has served as a member of the Board of Directors for the Toronto Construction Association for over 10 years and currently is the Chairman.

Jeff Ranson | Director, Energy Environment and Advocacy | BOMA Toronto

Jeff Ranson is a passionate leader driving market transformation for green buildings, strong cities, and climate resilience. He currently directs education, energy conservation programs and advocacy with the Building Owners and Managers Association (Toronto Chapter) after serving in leadership roles with the Canada Green Building Council (CaGBC), Sustainable Buildings Canada and Toronto 2030 District. For the past 15 years, Jeff has brought a unique perspective for advancing green buildings by addressing systemic challenges at the intersection of policy, workforce development, technology innovation and behaviour change.
